Solutions

1. Answer: (A) Cow

A **cow** gives us milk. Buffaloes and goats give milk too.

2. Answer: (C) Parrot

A **parrot** is a bird. Birds have feathers and wings, which help them fly.

3. Answer: (D) Fish

A **fish** lives in water. It uses its fins to swim and its gills to breathe.

4. Answer: (A) Four

A dog has **four** legs, like a cat, a cow and a horse.

5. Answer: (B) Pet or domestic

Pet or domestic animals such as dogs, cats, cows and hens live with people, who look after them.

6. Answer: (C) Lion

A **lion** lives in the forest and finds its own food, so it is a wild animal. The others are kept by people.

7. Answer: (D) Nest

A bird builds a **nest** out of twigs and grass. A dog lives in a kennel and a horse in a stable.

8. Answer: (A) Frog

A **frog** has long, strong back legs that let it hop a long way. A snake crawls and a fish swims.

9. Answer: (B) Q

Q is a tortoise. It carries a hard shell on its back and can pull its head inside when it is afraid. R is a fish and P and S are four-legged animals without shells.

10. Answer: (B) Sheep

A **sheep** has a thick, soft coat of hair. It is cut off and made into wool for our sweaters and blankets.

11. Answer: (C) Plant eaters

Animals that eat only plants, grass and leaves are **plant eaters**. Lions and tigers, which eat flesh, are meat eaters.

12. Answer: (D) Snake

A **snake** has a long body and no legs at all. It moves by sliding its body along the ground.

13. Answer: (A) Bee — hive

Bees live together in a **hive**. A horse lives in a stable, a bird in a nest and a dog in a kennel, so the other three are matched wrongly.

14. Answer: (B) Cat

Only a **cat** matches every clue — four legs, sharp teeth, soft fur and the sound 'meow'. A cow says 'moo' and has flat teeth for grinding grass.

15. Answer: (C) Because it breathes using gills, which work only in water

A fish **breathes using gills, which work only in water**. Out of water the gills dry up and the fish cannot take in the air it needs.
